HICKMAN, KENTUCKY, THURSDAY, JULY 9, 1914

Number 3

SAYS STRAWBERRIES GOOD MONEY CROP.

T. W. Drewry, of Kenton, Tenn., spent several days last week in Hickman and called at this office and gave us a few of his experiences in growing strawberries. He had read the article in last week's paper on this subject, and wished to add his opinion that the growing of strawberries for shipping was a good idea and that it would pay better than growing either cotton or corn. He says that if the farmers around here would sign up for 100 acres of berries that a buyer would be stationed here and pay cash for every crate that was brought to town. According to his experience of several years, he says that the crop pays from \$80 to \$125 net per acre. What crop does better than that in this county?

The plants do not bear the first year, but in order to pay for the expense of the plants, rent, etc., for the first year, cabbage should be set out between the rows of strawberry plants, and this will leave a nice profit after paying for plants, etc., and will at the same time keep the ground in shape.

Another feature that is worth remembering: Picking, packing and shipping the berries would give employment to a number of people that are not now employed, pickers especially making from 50c a day for a 10 year old person to \$2.50 and \$3 for adults.

This matter will probably be taken up by the Young Men's Business League and an effort made to get enough farmers to agree to set out 100 acres of plants to start the proposition. Hugh French, of Route 4, who has had experience in growing strawberries, in conversation with a Courier reporter, said that the country around Hickman is well adapted for growing strawberries and small fruits and that he would be glad to give any assistance he could with the proposition.

ALL BIDS REJECTED.

At the council meeting Monday night, all bids for the city hall property were rejected. We understand the city will not sell this property at present, but will make such repairs as is needed and continue to rent it.

Several sealed bids were received as the council had decided to reject all bids, none were opened. The council doubtless has good reason for holding the property, yet, if its sale should be the means of getting a new building, including a modern opera house, we are sorry the city didn't turn it loose.

"PERILS OF PAULINE" AT CRYSTAL TODAY.

That masterpiece of movie fiction, "Perils of Pauline," will again be given at the Crystal this afternoon and night. The showing today will be installment No. 2, consisting of three reels. This sensational serial picture is a \$25,000 production and without doubt the best picture ever thrown on a screen. Don't miss it. No extra charge.

One of the unique experiences of the ticket selling committee for the chautauqua, Tuesday, was getting an order or check written on a block of wood. A gentleman bought tickets and being where he could not procure a check, picked up a piece of wood and wrote a check form on it. Needless to say it got the cash when presented.

It's fun to go "kodaking" and to have good pictures that will be just as good ten years from now. For the best cameras and supplies, or expert photographic work, go to Helm & Ellison's.

Walter Wayner and wife returned to their home in Wingo, Monday, after a visit to Mr. and Mrs. S. A. Choate.

The four months' old son of Mr. Gillam, residing on C. Bradshaw's place in the lower bottom, died Monday.

Jerome Henderson returned Sunday from Craig Landing.

J. N. Cooper, of Paris, spent Thursday and Friday of last week with Miss Homer Green.

Atty. W. J. Webb, of Mayfield, was here on business Tuesday.

Mrs. Bettie Travis and daughter, Mrs. Jno. Handley, of Nashville, are visiting the former's son C. B. Travis, and wife.

It is a little harder to swat the rat than it is the fly, but they are after him in New Orleans.

Next time we sign a chautauqua contract we will scrutinize it a little more closely.

Miss Ethel Rhodes, of St. Louis, is visiting Miss Nell Bondurant.

EVERYTHING READY FOR CHAUTAUQUA.

The local committee looking after the chautauqua decided to locate the attraction in the Carnegie library grounds, this being by odds the most practical of all sites offered. The big tent covers a space of more than 100 feet square and a suitable location in the heart of the city could not be found. Others were too far out or lacked water and other conveniences.

The big tent and other equipment arrived yesterday and has been put in readiness.

By a concession on the part of the management, season tickets may still be bought at \$2 each up to the time of the first performance, which begins at 2:30 this afternoon. If you expect to attend the entertainment, a season ticket is the cheapest. We understand the committee still has a few tickets on hand which may be had at this price.

The performances will begin at 3:00 and 8:00 o'clock, instead of 2:30 and 7:30.

Vesper service Sunday afternoon will be in charge of local pastors and is calculated to be a union service for all churches of the city.

The big tent seats 1,000 people. There are no reserved seats.

GOV. McCREARY WILL SPEAK AT HICKMAN.

Gov. Jas. B. McCreary, governor of our state and candidate for United States Senator, will speak in this city Friday night, July 17th, in the interest of his candidacy.

At 1:30 o'clock in the afternoon of the same day, he will address the voters at Willingham Bridge, at which place a big barbecue will be pulled off.

The public has a cordial invitation to be present on both occasions. Gov. McCreary is one of the most distinguished gentlemen of this commonwealth and a splendid orator. Come out and hear him thresh the "opposition."

SELF-PROPELLED BARGE COMING UP RIVER.

New Orleans, July 6. — The transportation of freight on the Mississippi river from its headwaters to the gulf was resumed today after 20 years suspension, when barge No. 5 left here for St. Paul, Minn. The barge is one of a line to be used in river traffic. It is fashioned after those used on the canals of Holland and is propelled by its own power.

Application for temporary licenses, pending the regular examinations, have been received by the Board of Examination from 262 chauffeurs. W. R. Rice, of Louisville, chairman of the board, said examinations will be more practical than technical, and particular attention will be paid to the characters and past records of applicants for chauffeur's licenses.

POWER VESTED IN COUNTY JUDGES.

Police judges and magistrates
have no jurisdiction to try per-
sons charged with carrying con-
cealed and deadly weapons, un-
der the act of 1914, in the opin-
ion of Assistant Attorney General
M. M. Logan. This act adds to
the penalty for the first conviction,
disfranchisement for two
years, and he believes that in
keeping with its line of decisions
the Court of Appeals would hold
that this added penalty would de-
prive the magistrates of the power
to try such cases.

County judges, under another
act of 1914, have jurisdiction in
all misdemeanor cases, and if
this act is constitutional, Mr. Lo-
gan said, they will have jurisdic-
tion to try cases of carrying con-
cealed weapons.

SCHOOLS ARE THE FOUNDATION

PROGRESS AND PROSPERITY OF
STATE DEPENDS UPON EDU-
CATIONAL ADVANTAGES.

CHOOSE GOOD MEN TRUSTEES

Office in Many Instances Has Fallen
into the Hands of Incompetent
and Indifferent Citizens.

To All Our Fellow Citizens Who Love
Kentucky and Wish to See Her Ad-
vance to a Higher State of Prosper-
ity, Materially, Morally and Intel-
lectually—Greetings.

The schools are at the very founda-
tion of all prosperity and progress.
The quality of our schools inevitably
set the standard of our citizenship.
The quality of our schools must be
the result of the qualifications, inter-
ests and activities of our trustees,
teachers and patrons.

The trustees as a rule choose the
teachers. The County Boards are
made up from the ranks of the dis-
trict trustees and all the affairs of
the school district are in the hands
of, or under the influence more or less
of, the trustee, hence the vital impor-
tance of choosing the very best and
most suitable man in each district for
the office of district trustee.

It is true that hitherto this office
has generally been despised and look-
ed down upon as unworthy of great
consideration. As a consequence it
has largely fallen into incompetent
and indifferent hands, and as a result
the children's heritage has been sold
for less than a "mess of pottage."

But we are glad to see a great
change coming, the people are begin-
ning to recognize the very great im-
portance of this office and we believe
are going to see it filled with the best
ability in each district.

For this reason we think it is op-
portune to call the attention of the
school patrons especially, and the pub-
lic in general to the fact that on the
1st day of August next these impor-
tant offices are to be chosen by the
voters—now both men and women.

We would emphasize with all pos-
sible force and urgency that the
voters turn out on the day of the elec-
tion for school trustees and choose
men of character, of breadth of view,
of activity, of earnest purpose, incor-
ruptible, and who it may fairly ex-
pected will prove loyal to the inter-
ests of the children. Elect him and
make him serve. As a rule we would
not advise the election of a man who
is seeking the office.

Given one of the best men in each
district of the state, as school trustee,
and in one year from their installa-
tion we would see such a transforma-
tion in the outlook for this Common-
wealth as has not hitherto been
dreamed of.—John R. McFerran, Chair-
man Educational Committee, Louis-
ville Commercial Club.

WHAT A LIVE TRUSTEE CAN DO

As illustrating some of the few im-
portant things that a live trustee of
broad view and real interest in his
office might have in mind and be in-
strumental in accomplishing, attention
is called to the following:

"A school expecting to reach the high-
est degree of efficiency must work under
auspicious conditions. These conditions
include a comfortable, attractive school
building, surrounded by beautiful, well-
kept grounds. The condition of the
building and grounds is a correct index
of the appreciation of the community for
the school. The parents and not the
children, are to be judged by the appear-
ance of the school buildings and grounds."
—Daugherty, State Superintendent of Schools.

The Site.
The trustee's first duty it may be to
select the site should aim to provide for
the largest convenience of all the chil-
dren who are to attend. One of the most
important features in the healthfulness
of the locality is an elevated place, a
ground, a knoll, or a gentle slope should
be chosen for the reason that the drain-
age should be from and not toward the
building. The location of the school
should be such that the breeze from the
natural drainage, and a southern or
eastern slope secures the rapid evapora-
tion of surface water and is the most
favorable to the admission of health-giv-
ing sunlight. The house should stand
where there will be free play of breezes.
Trees should be near, yet not so near
as to shade the house completely or to
shut out the breezes in hot weather; both
breeze and sunlight are essential to
health. A school house should never be
located in a low or marshy ground, near
stagnant pools, or in the neighborhood
of offensive odors, nor should it in any
event be near a noisy railway or manu-
facturing plant.

Water Supply.
On every school house site there should
be a well-protected well so placed and
guarded as to be perfectly secure against
surface drainage of filth of any kind.

The School House.
A building should be fitted for the
school on the same principle that a
dwelling is made for the family; the
health and comfort of the children should
be the first consideration because all
their future will be affected by the im-
pressions they receive and the habits
they contract at school. They will reach
maturity with more or less vigor and
make shade or vigorous citizens according
to the influences there exerted upon
them.

Grounds.
The erection of a suitable building is
one good thing, but it will be use-
less, employing a good teacher in the
greatest importance, but beyond these
the improvement of the yard and
grounds is worthy of much attention.
Children catch the sentiment of a place
by inspiration. The beautiful lawn, the
shady grove, the inviting playground
have a charm for them, even the flower
border, butterfly path and rockery fel-
lows with respect. It helps to refine
their thoughts and purify their hearts.

The Architect.
One of the first and important things
in the construction of a school is the en-
ployment of an architect. The archi-
tect is regarded as an almost useless expense
by many people. The plan of all good
buildings from cottages and castles to
palaces is made by an architect and is
usually a masterpiece of art and utility.

The charge of all reputable
architects are about the same. It is per-
sistent in employing a man who does not
know his business because his price is
less. You pay more for what you get
but do not know it.—Department of Ed-
ucation, Kentucky.

A boy and a cigarette were the means of causing a horrible accident near Jordan a few days ago. The boy threw a lighted cigarette into the wagon of wheat he was hauling. It caught fire and caused the horses to run away. The boy rolled from the wagon and escaped and his horse succeeded in freeing itself from the burning wagon, but the other was burned to death. INSURANCE
PROBE PLANNED

COMMISSIONERS HAVE REQUESTED DATA—AMEND BASIC RATES SCHEDULE.

SAY LAWS WILL BE CHANGED

State Insurance Rating Board Asked for Ideas—Investigation Will Start in Fall.

Frankfort, Ky.—Investigation of insurance conditions in Kentucky will be started early in the fall by the commission appointed under the compromise agreement between foreign fire insurance companies and state officers. In the meantime the commission has requested the state insurance rating board, the insurance companies and any others who have ideas on the subject to submit in writing any proposals they may desire for changes in the laws, together with their reasons. D. C. Myatt, attorney for the state rating board, is preparing a digest of the decisions in Kentucky and the insurance laws of other states for the commission. The commission is composed of Henry Harrett Henderson, chairman; George E. Payne, Frankfort, secretary and representative Frank Brown, Carrollton.

To Address Teachers.

At a meeting held here in the office of T. W. Vinson, secretary of the Kentucky Educational Association, the following speakers were selected to address county teachers' institutes in the interest of securing the attendance of trustees at the K. E. A. meeting in Louisville next spring: T. J. Coates, McHenry Roads and F. C. Hutson, state school supervisors; Mrs. Cora Wilson Stewart, chairman of the State Literacy Commission; Lida E. Gardner, superintendent of Nicholas county, and C. M. McAllister and C. D. Lewis, of Berea College. Among other places Miss Gardner will speak at Louisville at the Jefferson county institute the week of August 23. T. J. Coates will address the joint Franklin, Scott, Woodford and Jessamine county institute at Nicholasville July 14. Secretary Vinson, John B. McFerran, of Louisville; T. J. Coates, Miss Lida E. Gardner and C. D. Lewis attended the conference here. Each county institute will set apart one day for the trustees.

Negroes May Teach.

Attorney General Garnett gave to G. P. Russell, of Frankfort, president of the Kentucky Normal and Industrial Institute, his written opinion that diplomas from that institution, signed by all the trustees of the college except the State Superintendent of Public Instruction, are valid. He said further that such diplomas authorized the holders to teach in the negro common schools of the state. State Superintendent Hamlett did not sign the diplomas this year, and had instructed the county school superintendents not to permit the graduates to teach in the negro common schools without a special examination. This opinion of Garnett overrules Hamlett. A friendly suit may be filed to get a construction of the statute.

Money Being Wasted.

That the money of the taxpayers of Kentucky is being wasted by the manner in which the Kentucky Normal and Industrial Institute is being managed is the opinion of State Superintendent Harkadale Hamlett, chairman ex-officio of the board of trustees of the institution. He said that board has ceased the custom of meeting monthly in his office, and his expressed wonder as to why an opinion from the legal department should be requested in regard to the validity of the diplomas issued to graduates from the Kentucky Normal and Industrial Institute.

All Profits Made.

The State Railroad Commission declined to enter a final order in the complaint of J. M. Richardson, of Glasgow, against the Glasgow Railway Co., a road operated by the Louisville and Nashville. Richardson protested against the passenger rate of five cents a mile charged from Glasgow to Glasgow Junction. The question for the commission to determine is whether it is a violation of a carrier's duty to the public to segregate a portion of its line and then privilege that line to charge a greater rate than that which prevails over the entire system.

Fireworks Forbidden.

One of the sadest and saddest Fourth of July in its history was passed in Frankfort. Fireworks of all kinds were forbidden. The children went to places, and the older people attended the Chautauqua. But two accidents were reported in the county.

Used of Trust.

A first mortgage deed of trust in favor of the Central Trust Co. to secure a bond issue of \$3,000,000 was filed in the office of Secretary of State C. F. Crecellus by the Hickman & Beaver Valley Railroad Co.

Must Conform To Law.

Dr. O. L. Ault, city health commissioner, in an interview, declared that all dairies operated in Charleston must either be made to conform with the laws of sanitation or close down at once.

County
School Notes

By Miss Virginia Luten
County Supt.

There are twenty-five white rural schools in the county, eight of these schools opened this week, five others will begin July 13th. The trustees have endeavored to get well qualified teachers and have been very successful in their efforts. Eleven teachers hold state certificates. Sixteen have attended high school, nineteen have attended normal school, and eleven have attended both high school and normal schools. One has also had one year in State University. All except three have had one or more years experience in teaching.

The teachers will please meet at the court house Saturday afternoon at one o'clock instead of two, as previously announced. This change has been made so that all who wish to attend the Chautauqua program may have an opportunity to do so.

The new school years began July 1. Teachers have been selected as follows:

Taylor, Ida Bellow, Fulton, Ky. Palestine, Era Hewitt, Fulton, Ky.

Liberty, J. C. Lawson, Jr., Fulton, Ky. McFadden, — Fulton, Ky.

Now comes the news that Maywood Williams, a well known Democrat of Fulton, may become a candidate for the nomination for representative from Fulton and Hickman districts next year. Mr. Williams admits to having an ambition to go to Frankfort in the capacity of a senator, and the only thing that prevents him from being an avowed aspirant for the honor is the state of his health. Others mentioned as probable candidates in the First district are former Representative Judge F. S. Moore, of Fulton county, and Joe Jackson, of Hickman county. Their names are also being used in connection with the race for state senator in the Fulton-Graves district.

Mrs. L. Powell and grandson, Master Roy Jackson, left last Tuesday for Bridgett, Mo., to spend several weeks.

BARN BURNED SATURDAY.

Will Pruett's barn caught fire about 12 o'clock Saturday night and was completely destroyed, along with a lot of corn, hay and oats. How the blaze started is not known. When first discovered, the flames were coming through the roof and evidently started in the loft. Mr. Pruett managed to get twelve head of stock out of the barn in time to save them. This barn is located on the farm of T. A. Prather, Sr., just beyond Shuck Switch. We did not learn the amount of loss, but understand there was no insurance.

Women
Everywhere

Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. Is it not reasonable to believe that what it did for these women it will do for any sick woman?

Wonderful Case of Mrs. Stephenson,
on the Pacific Coast.

INDEPENDENCE, OREGON.—"I was sick with what four doctors called Nervous Prostration, was treated by them for several years, would be better for a while then back in the old way again. I had palpitation of the heart very bad, fainting spells, and was so nervous that a spoon dropping to the floor would nearly kill me, could not lift the lightest weight without making me sick; in fact was about as sick and miserable as a person could be. I saw your medicines advertised and thought I would try them, and am so thankful I did for they helped me at once. I took about a dozen bottles of Lydia E. Pinkham's Vegetable Compound and also used the Sautive Wash. Since then I have used them whenever I felt sick. Your remedies are the only doctor I employ. You are at liberty to publish this letter."—Mrs. W. STEPHENSON, Independence, Oregon.

A Grateful Atlantic Coast Woman.

HOPKINS, ME.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached. I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SOWERS, Hodgdon, Maine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL), LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

FLIGHTS WERE FINE.

Bud Carey (alias Fay) of Pratt, W. Va., who pulled off the flying stunt here the 8th, is one of the best artists in his kind we've ever seen. He is easily in a class with Tony Johns, Thornwell, Orville Wright and others. His work here was faultless. Some of his "dips" executed made cold chills race up and down one's spine, even though it was the hottest kind of day. The machine used by Mr. Carey is a hydro-aeroplane, and, as the name indicates, can be used only where it may rise and light on water; otherwise, it embodies all the principles of the aeroplane. The Sunny South Floating Theatre, which carries this popular free attraction, will play a return engagement here next Wednesday night. Mr. Carey will again give a free flying exhibition on the afternoon of that day.

Mrs. T. R. Powell and visitor, Miss Emma Miller, Miss Frankie Penyer and Tom French made the trip on the Stacker Tuesday, coming back Wednesday on the Rees Lee.

We are informed by Secy. Tom Dillon that the Hickman Building & Loan Association is now ready to loan money on Hickman property, and that the next meeting will be held next Thursday night. This company, which has done so much for the upbuilding and advancement of Hickman was "up against it" on account of the recent insurance muddle, but since that has been straightened out the Association is now ready and willing to loan money on Hickman property.

News Snapshots Of the Week

Archduke Francis Ferdinand, heir to the throne of Austria-Hungary, and consort, Duchess of Hohenberg, were shot and killed by a Bosnian who had been ordered out of his country. Prince Charles Francis Joseph is the new heir to the throne. A conflagration swept the historic city of Salem, Mass., causing a loss of six lives and \$15,000,000. The Columbia varsity eight oared crew won the intercollegiate rowing regatta at Poughkeepsie, N. Y., after a grueling battle. Pennsylvania was second and Cornell third. Mrs. Helen M. Angle is held as the chief witness in the mystery surrounding the death at Stamford, Conn., of Waldo H. Ballou, a prominent politician. Chief of Police Brennan is in charge of the investigation. General Angeles was reported executed by Villa, but the latter denied it.

MINNESOTA GOVERNOR WILL BE HERE MONDAY.

Gov. A. D. Eberhart, of Minnesota, will appear on the chautauqua platform in Hickman next Monday afternoon, taking the place of Hon. Jos. W. Folk, who was unable to fill his appointment here.

The career of Governor Adolph A. Eberhart who is to speak here chautauqua week is one of almost romantic interest. Few great men in the world's history have succeeded against so many odds and difficulties and risen to fame. Born in a foreign country and coming to America at the age of eleven years all alone, working hard and never having but three months' schooling until he had reached the age of twenty-one, it is at once apparent that his pluck, perseverance and ability were little less than marvelous.

Governor Eberhart was born in Sweden in the year of 1870. His parents were poor and saw little chance of bettering their condition in their home land and hearing of the great field of opportunity which lay in the farms of the American continent they decided to come to America, when Adolph was ten years of age. Adolph was to stay with a well-to-do uncle in Sweden for a while, until they would prepare the way for him to come to this country. A year later Adolph tired of living with his uncle sent word to his parents that he wished to come to the new land himself to seek his fortune at once.

He started alone, but when he got to Liverpool this lad of 11 years found himself lost in the midst of unknown surroundings. But perseverance conquered and he was not long until he was on a steamer bound for American shores.

He landed in the state of Nebraska to which place his parents had preceded him. They lived in a mere cabin and were as yet unable to support him on his arrival there. His first work was that of a cattle herder, and then he went from that into farming and followed this occupation in its different branches for a number of years.

The last man for whom he worked was a clergyman farmer, and here he had access to the preacher's library and showed a decided interest in books. The preacher encouraged the lad to go to school and college and impressed him with the value of an education. As stated above, up to this time he had had but three months' schooling.

His work upon the ranch and farm, however, had given him a strong physique and with excellent health and a rare determination he started in to attend school at the academy at St. Peter, Minn., and later pursued his college course at the same place, completing in all a seven years course in four years and three months and graduated as the valedictorian of his class. Not only this, but by working outside of school hours he paid his entire course himself, and while passing through college he took every study in the curriculum, more than seventy-five in all.

Not only this, but by the money he had saved and what he earned during his school years, he paid his way through his entire course. Next he studied law and was admitted to the bar in 1898.

Later still he was elected to the United States Senate and while a member of that body secured the passage of numerous important acts among them the anti-rebate law, the highway commissioners act, amendments granting rail-

road commission control of railroad rates and giving power to the state commissioner to take proceedings before the Interstate Commerce Commission, etc., etc.

Then Senator Eberhart was elected to the office of Lieutenant Governor. Following Governor Johnson's death, Mr. Eberhart filled out his unexpired term and then was elected governor and today is candidate for the United States Senate.

During his term of administration as governor, there have been 240 centralized schools established and in the rural districts 400 district schools abolished.

THE LETTER "E."

Here is a bit of "exchange" that is going the rounds of the press just at this time: A certain party has advanced the opinion that the letter E is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt, never out of danger and in hell all the time. For some reason unknown to us he overlooked the fortunes of the letter and we call his attention to the fact that E is never in war, always in peace, it is the beginning of existence and the end of trouble. Without it there would be no meat, no life and no heaven. It is the center of honesty, makes love perfect and without it there would be no groceries, hotels, money, stores, horses, water, editors, devils or news as well as a great many other useful things.—Ex.

NOTICE TO COURIER CORRESPONDENTS.

From time to time the Courier sends to its correspondents sample copies for distribution in their neighborhood to persons who are not subscribers. When they are received, it would be profitable to both the Courier and correspondent to distribute these at once, soliciting the party to become a subscriber of this paper. Our new system of handling country correspondence is proving a popular one and has been the means of adding quite a lot of new names to our subscription list. We are extremely proud of our country correspondents, and we will be glad to assist them in any way in covering the news of their neighborhood and getting new subscribers.

REFRESHING SHOWER. FELL HERE YESTERDAY.

A much needed and refreshing shower fell here yesterday afternoon. The precipitation was a little more than one-half inch. While not enough by any means to meet our present needs, it did a wonderful amount of good. No rain fell south of Woodland Mills, we are informed, but Fulton, Cayce, Moscow and part of the lower bottoms were in the shower zone.

It may be said that the drought still continues, which dates back to May 4th. Many farmers contend that the corn crop has already been cut to half, especially the early crop. A large portion of the corn ground in the upper bottoms has not yet been planted and cannot be until a good rain comes.

Many people are hauling water for family use. Roads, for the most part, are next to impassable on account of deep dust.

4th CELEBRATION PROVES BIG SUCCESS.

Hickman's big celebration was pulled off in a most successful and satisfactory manner. Only one or two advertised features failed to materialize, and these deficiencies were unavoidable. Every town within a radius of fifty miles of this place was represented. The crowd would have been even larger had the roads not been almost impassable from dust. A finer day could not have been wished for, and everything went off in a quiet, orderly manner.

Ample provision had been made for feeding the crowd; plenty of seats, ice water, etc. were to be had. Amusement in some form or other was carried on throughout the day, winding up with a magnificent fireworks display at night on the opposite side of the river.

Aviator Fay, of the Sunny South, gave two splendid flying exhibitions, being up in the air about a half hour on each flight.

The parade at 1:30 was one of the best features on the program. It was the best in point of both quality and quantity ever seen here. Every float and vehicle in line were beautifully decorated, appropriately designed, the Elks and Moose lodges made especially good showing with their floats, bands and marchers. City and county officers were also in line.

The winners in the events where prizes were offered are as follows:

Boy Scouts' Relay Race—Chas. Metheny, Bob Salmon, Andy Harlan, Sam Barry. Prize \$2.50 each. Free for all race—100 yards dash—1st, Paul Choate \$2. 2nd, Dee Shaw, \$1.00.

Swimming Race—1st, John Daniels, \$3.00; 2nd, Percival Davis, \$2.00.

Funny Diving—1st, Percival Davis, \$3.00; 2nd, John Daniels, \$2.00.

Skiff Race—100 yds, one man to skiff, 1st, John Sexton, \$1.00; 2nd, Doss Harris, \$2.00.

Skiff Race—two men to skiff—1st, John Sexton and John Daniels, \$3.00; 2nd, Victor Amburg and Doss Harris, \$2.00.

Parade—Motor vehicles—1st, W. H. Baltzer, \$10.00; 2nd, Helm & Ellison, \$5.00. Fraternal—1st, Elks Lodge, \$10.00; 2nd, Moose Lodge, \$5.00. Other vehicles—1st, Chas. Moore, \$10.00; 2nd, Lion Theatre, \$5.00. Concessions—1st, Joe Amburg, \$10.00; 2nd, Robert Ballard, \$5.00.

Men's Relay Race—Paul Choate, Mr. Fox, Tom Powell and Len Naylor, \$10.00.

Messrs. J. L. Hensley, Clinton; A. K. Avery, Columbus, and W. R. Moss, Clinton, acted as judges for the parade.

PUNK AND POWDER.

And it didn't rain.

Nothing but success.

Glad it's over? So are we.

The sunest 4th we ever saw.

The weather man was with us for once.

The parade exceeded all expectations.

E. L. King's merry-go-round did a big business.

The Union City Moose band made splendid music.

The excursion Str. Rapids proved a popular attraction.

Estimates on the attendance runs from 5,000 to 8,000.

Only a few of the athletic events got by without entries.

There were no gambling devices or skin games to catch the unwary.

There were about thirty concessions and most of them made good money.

Metropolis (Ills.) has a band that she should be proud of in every particular.

Very few drinks—and not a single arrest. Speeches mighty well for the crowd.

The ball game between Union City and Hickman was well attended. The score was 11 to 3, in Hickman's favor.

W. C. Reed, Judge Elvins Stahr, Frank Von Barries, J. T. Dillon, Dee Henry, T. R. Powell, Doyle Jurney and one or two others were on the firing line all the time.

The fireworks were the best ever seen in Western Kentucky. Unfortunately, the time of firing them was moved up an hour ahead of the program time and many

SHEEP VS. WILD ONIONS.

For the benefit of Fulton county farmers, who are bothered with wild onions, we give the following:

Now comes a contributor to the Progressive Farmer with this declaration—is it worth trying where the pest is grimly crowding out other things:

Sheep will eat onions in preference to any grass or clover known and never will allow an onion to grow to seedling height, unless there are more onions than they can eat. No matter how many onions the sheep may eat, the flesh, when butchered, never taste or smell of onion. Encourage the sheep husbandry, and they will eradicate, or at least keep down the onions, and pay well for the privilege of doing so.

HICKMAN DRUGGIST HAS VALUABLE AGENCY.

Helm & Ellison has the Hickman agency for the simple mixture of buckthorn bark, glycerine, etc., known as Adler-ika, the remedy which became famous by curing appendicitis. This simple remedy has powerful action and drains such surprising amounts of old matter from the body that JUST ONE DOSE relieves some stomach, gas on the stomach and constipation almost IMMEDIATELY. The QUICK action of Adler-ika is astonishing.

NINE STATES ARE DRY.

State wide prohibition in West Virginia became effective last week. It brings the total number of states in the prohibition column up to nine.

With West Virginia added, the list will be: Georgia, Kansas, Maine, Mississippi, North Carolina, North Dakota, Oklahoma, Tennessee, West Virginia. These nine states of total prohibition territory, plus the local no-license areas, make up 2,132,726 square miles, in which 40,029,750 persons or nearly 50 per cent of the country's population live according to the latest figures of the prohibition leaders.

THORNS IN PATHWAY.

That all is not rosy in the path of the newspaper man is expressed by Editor Jno. S. Lawrence in the Paducah Record as follows:

"The newspaper man, like everybody else, has troubles. For instance, you may say nice things about a man and his family for years, and not receive as much as 'thank you' but the instant something appears in the paper that the same fellow does not like it makes no difference how innocent were the intentions of the editor, the newspaper man at once becomes the meanest devil in all the world and nothing is too bad to be said of him and his paper. 'Give the devil his due,' is a truth all admit, and at least from a spirit of charity the editor ought to be entitled to the same consideration, and if you are going to abuse him for what you do not like, why not a kind word occasionally when something complimentary appears in the news columns?"

Comments of World-Famous Men on the Chautauqua

Keep in Mind that Our City Is to Have a Great Five-Day Chautauqua Program This Season

Hon. Theodore Roosevelt, Ex-President of the United States, says:
"The chautauqua is the most distinctively American thing in this country."

Hon. William Jennings Bryan, Secretary of State, says:

"The chautauqua affords one of the best opportunities now presented the public speaker for the discussion of questions of interest to the people. The audience is a select one and always composed of the thoughtful element of the community, and as they pay admission they stay to hear. I believe that a considerable part of the progress that is now being made along the line of moral and political reform is traceable to the influence of the chautauqua."

Dr. Frank W. Gunsaulus, the World's Greatest Preacher and President of Armour Institute of Technology, says:

"The chautauqua have become a great people's university. They are among the greatest feeders for our colleges and universities. He further states that ten per cent of the students in the institution of which he is president, Armour Institute, owe their presence to the chautauqua influence."

Hon. Champ Clark, Speaker of the National House of Representatives, says:

"A great many newspaper wits shoot their shafts at chautauqua lecturers, and certain purse-proud editors undertake to make it a sin for a public man to lecture for pay. They think it the height of sarcasm to refer to a public man as a chautauquan. There is one great virtue in chautauqua money. It is clean money. You do not have to explain where you got it. If a man does not desire to go to hear a lecture, there is no law to compel him to do so. . . . The chautauqua has been a powerful force in directing the political thought of the country, which is largely sociological in these latter days. . . . I defend the chautauqua and the chautauqua lecturer, with whom I have been associated, because they constitute as fine a group of men and women as can be found among the splendid citizenship of America. I have a deep and abiding interest in them, and bid them a hearty godspeed in their work."—From The Arena.

Unless we get a whopping big rain in this section this week, there'll not be a very strong demand for automobiles in Hickman this fall.

Fate Counts, a well known farmer living near Pryorsburg, died Thursday morning at his home in that part of the county. He was 55 years old.

On Wednesday of last week Mrs. S. N. Sweeney entertained the following at dinner: Mesdames, L. Powell, Sabe Choate, Bud Hendrix, John Creed and Chas. Jackson. An elegant dinner was enjoyed by all.

Mr. and Mrs. E. C. Choate, of Wingo, spent the Fourth in Hickman.

Chautauqua Lecturer Who Has Studied Labor Problems In the Laboratories of Living Men

REV. GEORGE L. McNUTT.

GEORGE L. McNUTT, the "dinner pail man," who is to lecture at our Chautauqua on "Culture and Democracy," has been upon the platform for years, and few men have had more return dates than he. As Governor Hoch of Kansas says, "He has a big brain, a big heart and a big message." Mr. McNutt was a farmer boy, Hoosier born, from Douglas county, Ill. A student for a year at Princeton university, a graduate of Wabash college, he became a Presbyterian preacher at Urbana, Ill. To the west of the church was the University of Illinois, with its army of students; to the east the shops of the Big Four railroad, with its 500 dinner pail men. Thus from the first the preacher was confronted with the practical relations of culture and democracy. After preaching fifteen years in Urbana, Indianapolis, New York city and the far west Mr. McNutt entered the University of Hard Knocks to study first hand social and economic questions. Beginning as a constable in an iron mill, the preacher worked locos. through Indiana, Ohio, Pennsylvania, Maryland, New York, Boston and through New England up to Maine. For seven years the man from the pulpit, with his wife and boys, lived the life of the unskilled day laborer's family, studying the problems and conditions of the laboring people in the laboratories of living men. Mr. McNutt's lecture here will be one of the features of the Chautauqua.

On Chautauqua Program This Afternoon

Doing hard work in a bent or stooping position puts a stitch in the back that is painful. If the muscles have become strained, you can't get rid of it without help. The great penetrating power of BALLARD'S SNOW LINIMENT will appeal to you most strongly at such times, because it is the very thing you need. Price 25c, 50c and \$1.00 per bottle. Sold by Hickman Drug Co.

Mayor Crump, of Memphis, offers a reward of 5 cents for each live rat captured, to be examined for bubonic plague germs. Something similar should be done in Hickman—except that our reward should read: "dead or alive."

Deafness Cannot Be Cured

by local applications, so they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Mediation is practically dead for the summer. To wait on Caranza's proposed vote of his generals will require many weeks, as several of them are beyond the reach of wire communication.

SONG OF THE SOIL.

Robert G. Ingersoll was once asked by a young man to use his influence in getting him a government clerkship. After Mr. Ingersoll learned that the young man had a wife and baby, and was just off the farm and the possessor of forty acres of land, he said:

"Young man, I would rather have forty acres of land with a log cabin on it and the woman I love in the cabin, with a little grassy, winding path leading down to the spring where the water gurgles from the lips of the earth, whistling night and day to the white pebbles a perpetual song—with hollyhocks growing at the corner of the house, and morning glories blooming over the low latched door—with lattice work over the window so that the sun would fall checkered on the dimpled babe in the cradle, and birds, like songs, with wings searing in the summer air, than to be the clerk of any government on earth."

QUIT TAKING RISKY CALOMEL

Here is a vegetable tonic that is far better for you to take than the dangerous drug and poison called calomel. You never can tell when calomel is going to "get you." That's the worst thing about taking so uncertain and dangerous a drug for constipation and liver trouble. Calomel is liable to salivate you or "knock you out" for at least a day the very next time you try it.

Hickman Drug Company has the mild vegetable remedy that successfully takes the place of calomel. This remedy is Dodson's Liver Tonic, a very pleasant tasting liquid that gives quick but gentle relief from constipation, torpid or "lazy" liver. Dodson's Liver Tonic is fully guaranteed, and if you buy a large bottle for fifty cents and it does not entirely satisfy you, the drug store where you bought it will promptly give you your money back with a smile.

Dodson's is fine for both children and grown people.

IN MEMORY OF CLIFFORD TRUE.

Clifford was born June 15, 1913 and died May 27, 1914, age one year, eleven months and twelve days. How lonely it will be with our little Clifford to brighten and cheer the home. But we can only point the bereaved family to the love of God who doeth all things well and say, weep not dear father, mother brother and sisters, from he has been called to a better land where there will be no sorrow, sickness, pain nor death.

Farewell little Clifford, farewell. 'Twas so hard from thee to part. Although the Lord has called thee it almost breaks our heart. 'Twas so hard to give thee up. But 'twas God's will and we must humbly bow and drink the bitter cup. We know thy sinless soul is free. Thou art saved by Christ's atoning blood. So freely shed for thee. So we must say farewell. Thou art only gone before. In heaven we shall meet again. Where parting comes no more. —One who loved him.

Speaking of the present, and to us unprecedented, dry weather, the Oracle of the Gazette office remembers when, in 1854, a drought set in in June and lasted until Christmas. Notwithstanding the weather conditions, a wonderful corn crop was harvested. Again in June, just twenty years later, southwest Kentucky had another drought. Farmers living in Callaway and Graves counties drove their cattle to the bottom lands of Hickman county to feed on the cane then so plentiful. But the farmers here objected and, in order to preserve the food for their own stock, shot and killed the alien herds. Now, forty years later, we are once more threatened with another drought. —Clinton Gazette.

Mr. and Mrs. T. R. Powell delightedly entertained a few friends with a lunch party Monday evening in honor of their guest, Miss Margaret Miller, of Columbia, Mo. The party was carried by gasoline launch to a point about six miles up the river, where a lunch was spread and enjoyed by those present. In the party were Miss Miller, W. C. Reed, Judge W. B. Auberg, wife and son, T. M. French, and Miss Frankie Fowler, A. E. Kennedy and wife, and T. R. Powell and wife.

The good prices quoted on the markets for the things that the farmer produces threaten to wreck the hopes of a good many aspiring republicans who have been expecting to ride into office by showing the farmer how hard he has been hit by the removal or reduction of the tariff on farm products. It will require some high and lofty juggling to get the statistics to fit the republican congressional candidates case.

Says the Hopkinsville Kentuckian, about all this talk of feeding wheat to the hogs: "Don't be too hasty about feeding wheat to the hogs. Let's figure a little first. In 1913 an acre made 10 bushels and wheat opened in Hopkinsville at 80 cents. In 1914 the same acre has made 20 bushels and the present selling price is 70 cents. In one case \$8 to the acre and in the other \$14. You're \$6 ahead, boys. Don't let the hogs have it."

Excavation is well under way for the new brick building for Steve Stahr between Wright's store and the Carlin building. Brick work will probably start this week.

Every business man in Hickman should drop his work long enough to attend our five day's chautauqua. This is a form of recreation beneficial to both mind and body. We live too fast in America. We have not enough holidays—not enough resting places—not enough intermission in our work day world. It were better if, instead of having laid aside its tools—traffic and trade stopped, now and then, and to consider its aim and end. There must be an oasis in every desert. The stark Sierras has its smelt valleys. There are smiling nooks among the Cordilleras. It was not intended that man should spend all his days a leaver of burdens. Cut loose and attend the chautauqua.
